

Boys & Girls Club of Georgetown

To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

Since 2018, over 973 kids have walked through the doors. 72% of these kids are living in an economically distressed situation. 55% are living in a single parent household.

Through GHF funding, the Boys & Girls Club of Georgetown has:

Gained the financial assistance needed to create and execute ambitious program goals

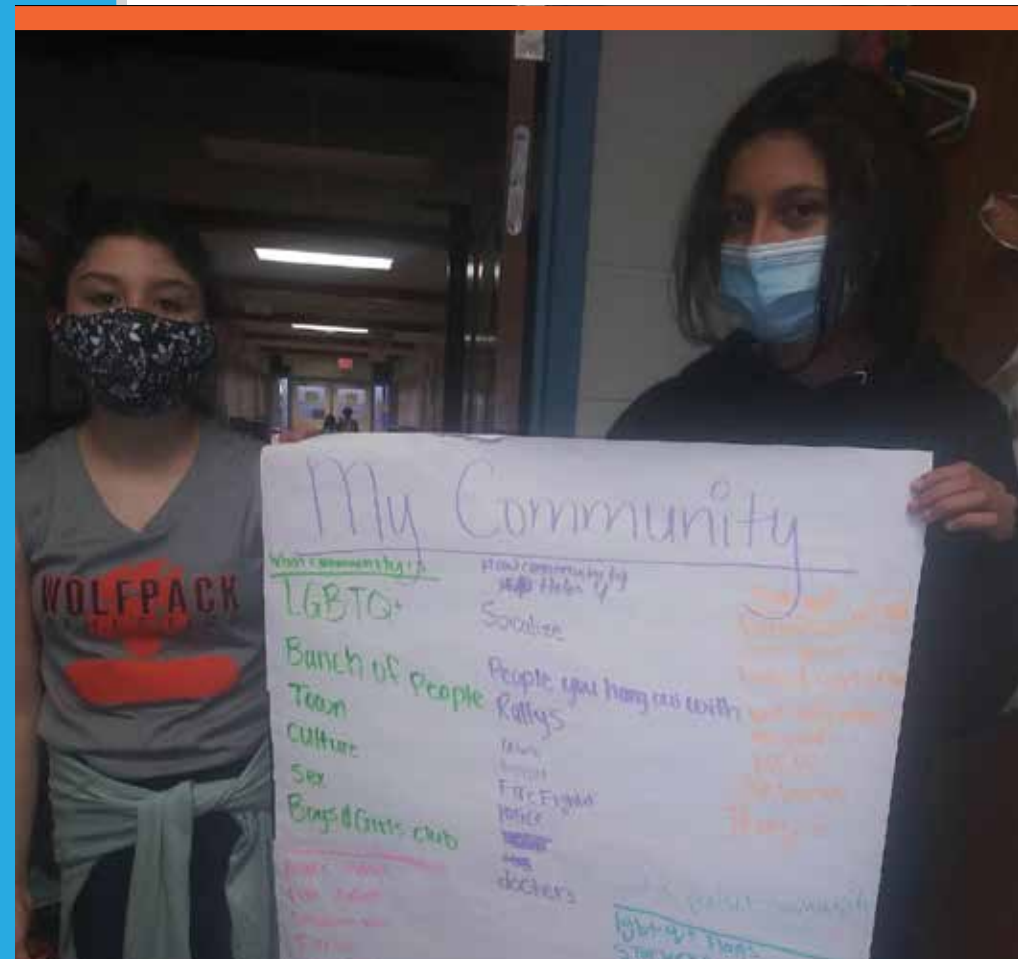

Received excellent guidance and encouragement that has provided for internal growth

Diversified and increased staffing, cultivated partnerships, added new methods of client and community engagement, and opened new avenues of revenue generation

Increased staff salaries to improve recruitment and retention capacity

With the infrastructure that GHF has helped us to build, we can aspire for more – more for the kids who attend our club, more for the staff and volunteers who dedicate their time, talent and treasure. GHF has enabled us to have a tremendous impact on the community and we appreciate the partnership beyond what words could describe.

— KELLY ST JULIEN, BRANCH DIRECTOR
